Faculty Requests for Professional Learning

How do I...

- **Make my syllabus more welcoming to the students so that they are not just bombarded with rules, regulations, etc.?**
- **Create a survey to get to know my students better before, during, and after the course?**
- **Be flexible and offer different learning modalities (e.g., videos, PPTs, written assignments) to my students?**
- **Make my course more accessible to students with different life and cultural challenges?**

FROM ACTION TO IMPACT

STRONG WORKFORCE FACULTY INSTITUTE
