- 48 registered, 6 never accepted the invitation
- 38 participants started the course
- 22 completed the course
- 100% of participants responded positively and said they would recommend the course.

# Participant Feedback

**"What an eye-opener! My basic definition of WBL has not changed drastically but what has grown is the scope of activities that would be included within this definition. This course opened me up to new possibilities that I had never considered in my narrow thinking about WBL activities. There is so much I can include in my class. I love the idea of "sprinkling" in the concepts throughout the term to help to reinforce what is being learned. Thank you for a wonderful learning experience!"**

# Participant Feedback

“In general I didn't focus much on preparing students for a career, but after taking this course I have some good ideas of how to do it without cutting out or neglecting required course content. This course gave me a lot of really useful ways to incorporate WBL into my classes, especially ways to emphasize and/or teach 21st century skills, that align pretty well with activities I was already doing.”

“I really loved this course, it provided so many great resources for faculty to use to help their students prepare for a WBL experience. I loved the details and the way it was structured.”

# Upcoming Cohorts

- **Spring 2022: Friday, February 25, 2022- Monday, May 2, 2022**
  - Registration opens January 17 and closes February 18
- **Summer 2022: Friday, June 17, 2022 - Monday, August 8, 2022**
  - Registration opens May 6 and closes June 10
- **Fall 2022: Friday, September 23, 2022 - Monday, November 14, 2022**
  - Registration opens August 12 and closes September 16

# Registration Guidelines

---

- Registration will open 30-40 days before course start
- Registration will close 1 week before the start date of each course
  - No late registrations, requests will be referred to a future course
    - Many of the participants who started the course late did not complete!
- Marketing- How should we market the course moving forward?

Thank you.
