DUAL ENROLLMENT CONSULTING

Project Overview and Introduction to Regional Special Admit Data
Analysis

Mallory J. Stevens, EdD

DUAL ENROLLMENT CONSULTING PROJECTS

Monthly Community of Practice Meetings

- Initial convening on March 22nd.
- Monthly topics focused on leveraging best practices in the region.
- Dual enrollment practitioners and leaders from the high schools, community colleges, and county offices of education.

Dual Enrollment Webpage

- Designed to meet the needs of San Diego & Imperial Counties
- A centralized place to share best practices, organized in a way that is meaningful for you.
- Example: dualenrollment.baccc.net

Dual Enrollment Office Hours

- A place to discuss and share dual enrollment questions and challenges.
- 2 times per month. Recorded so that they can be accessed later.
- Identify opportunities to collaborate, supports needed, and develop collaboration.

4th Thursday @ 10 am
2nd Wednesday @ 1 pm

Dual Enrollment Needs Assessment

- Responses will inform the Community of Practice and webpage
- Designed to explore the work that is being done in the region, to find opportunities for collaboration and support.

SPECIAL ADMIT DATA

What it is and what it is not.

- **Community college student data over 15 years**

https://datamart.cccco.edu/Students/Enrollment_Status.aspx

- **Combines all forms of dual enrollment**

Includes individual (concurrent) & CCAP dual enrollment, and students at early & middle colleges

- **Tied to the community college, not to the high school**

This is one data set... there are others to consider!

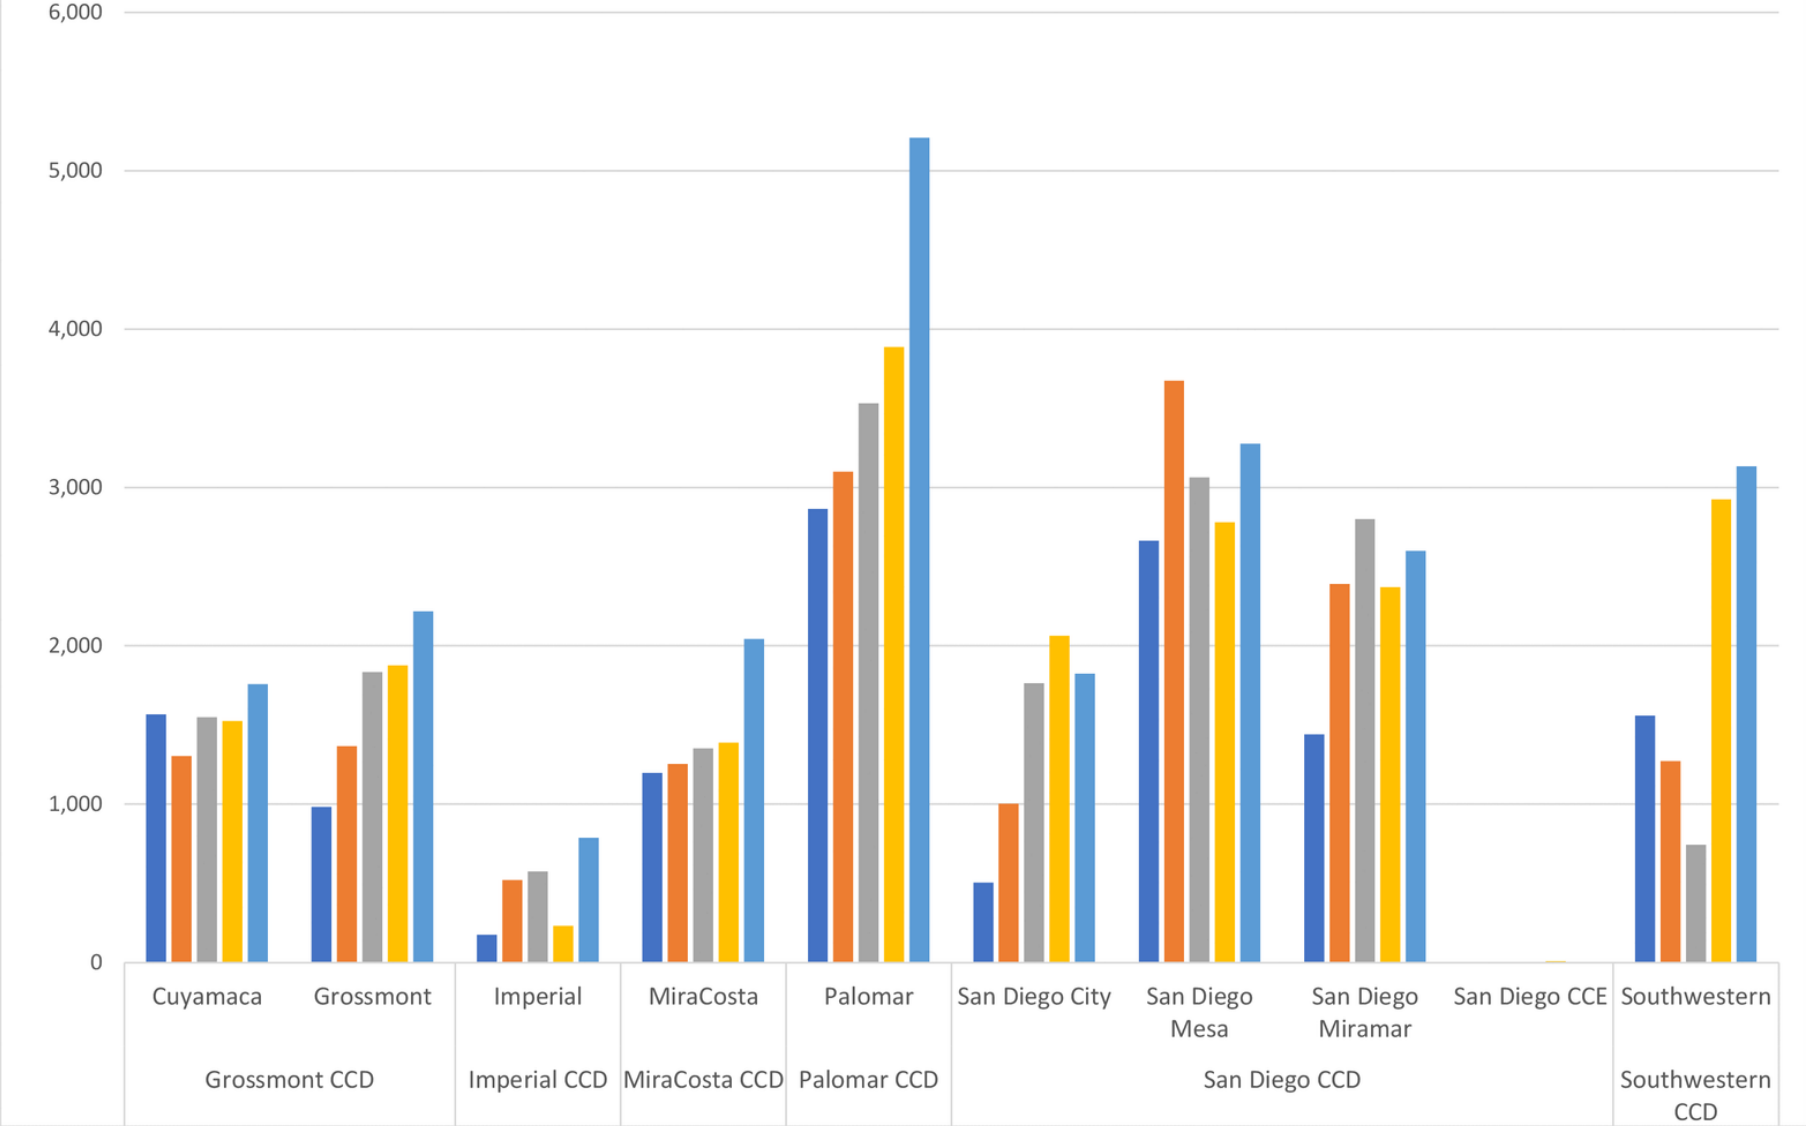

- **Participation data only!**

Other data to look at... dosage of dual enrollment, persistence, matriculation after high school, courses taken.

SDI Special Admit Students 2016-2021

(5 year overview)

■ 2016-2017 ■ 2017-2018 ■ 2018-2019 ■ 2019-2020 ■ 2020-2021

COMING SOON

- Analysis by race and gender
- Special admit as a percentage of total enrollment
- Evaluation based on the needs of the dual enrollment leaders in the region
- Dashboard to allow exploration of data by college or district.
