Job Placement Process Questions

JPCM

What data and resources are you using to identify students to work with?

How are other departments referring students who need Job Placement services?

How are students assessed for level of service needed and employment readiness?

Student is not ready:	**Student is ready:**
If a student is not ready for employment, how are they referred for additional support?	Where is a student referred if they are sufficiently prepared to apply for a job?
How are students reassessed for placement after receiving additional support?	How are you maintaining contact with your students throughout the different stages of the placement process? • Seeking Jobs • Applying for Jobs • Receiving Offers • Not Receiving Offers

Data:
What information is tracked when a student participates in the Job Placement process? How is that data gathered and where are you storing it?
