Services Supervisor

Description of PN Data Use Practice

- We were addressing the issue of career exploration before educational planning
- CCCMyPath data used to track student interest
- Researched many colleges for best practices
- Based on usage data, we are creating opportunities for students to explore majors and careers

How we got started and who was involved?

- College Pathways Navigation meetings
- Instruction and student services is involved
- We also value the input of our student ambassadors and support staff

CCCMyPath and GC Application

1. Create a CCCMyPath account or login to your existing account
2. Follow Steps Cards located at the top of the CCCMyPath page.
3. Complete 'New Application' on CCCApply
4. Wait 24-48 hours for your account to be established.

Career Exploration

Career Coach

The steps students take in career exploration can help guide in making positive, well-informed education and career decisions. Your career journey begins with exploring your interests and figuring out how those line up with a major and career interest.

Understanding what careers are available and what the job market looks like can help you make decisions about major and career goals.

We recommend you to start exploring through Career Coach as you can:

- Take a career assessment
- Explore local careers
- Explore industries and occupations that match your interests
- Learn about educational programs that can prepare you for your dream job

You can also visit [Grossmont College's Career Center](#) to continue exploring careers and majors by attending workshops. For help using Career Coach, please watch this [video](#).
