CAREER EDUCATION GUIDE 2023-2024

COMMUNITY COLLEGES OF SAN DIEGO COUNTY

DEAR EDUCATORS AND COUNSELORS

A MESSAGE FROM THE SAN DIEGO AND IMPERIAL COUNTIES REGIONAL STRONG WORKFORCE PROGRAM:

Preparing students to be college and career ready gives you the opportunity to help students identify their personal interests and values as they relate to career choices. Students need assistance in their career development journey (self-awareness, career awareness, career exploration, career preparation, career training) so they can make informed postsecondary and career decisions. Our hope is that you will use this Career Education Guide to help students align their interests and values with career pathways that will lead them to careers in high-wage, in-demand industry sectors. Students may already be interested in an industry sector or career pathway and the guide can give them information about the education and skills necessary to be successful.

Within the guide are embedded references to the RIASEC Holland Codes, or six interest areas. The abbreviation RIASEC refers to:

(R) Realistic

(I) Investigative

(A) Artistic

(S) Social

(E) Enterprising

(C) Conventional

We understand there are many career assessments available in a practitioner's toolbox. Since many career assessments organize by Holland Codes, we have used them in the guide to designate which interest categories correlate with each industry sector. As any skilled practitioner knows, these codes are not to be used in isolation but rather in consultation with a qualified counselor who can assist in interpreting career assessment results and take the time to understand a student's unique circumstances and needs.

In the back of the guide are helpful resources you can use to access free career exploration tools as well as career assessments. Understanding a student's interests will aid you in helping to plan a student's coursework to complete career pathways offered by your site or district. There is also a link to the San Diego and Imperial Counties Community Colleges Career Education website, careered.org, where information about training for in-demand careers can be found to help students with their postsecondary education plans.

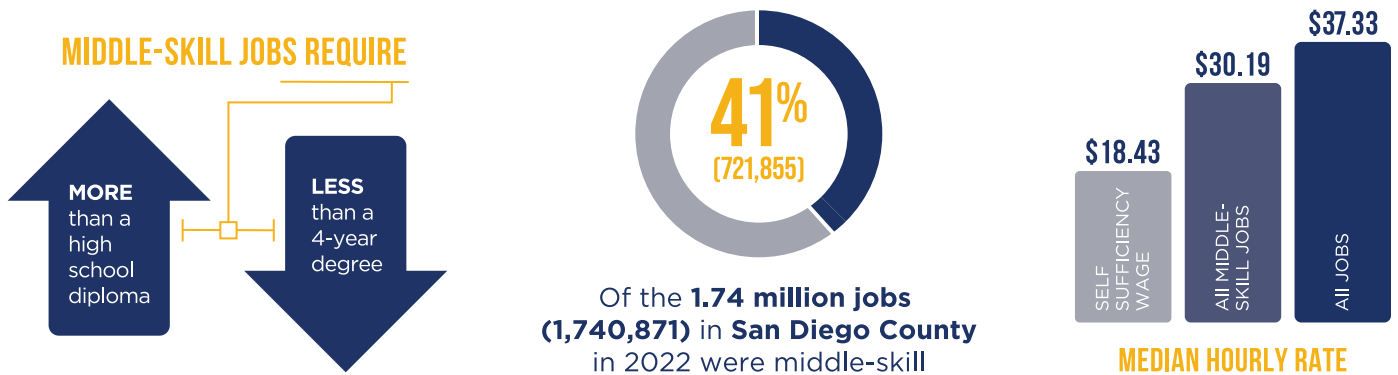

MIDDLE-SKILL JOBS DRIVE THE ECONOMY

Businesses need more qualified candidates to fill good-paying middle-skill positions. Career Education at the Community Colleges in San Diego & Imperial Counties holds the key to unlock these growing, in-demand jobs.

THE OPPORTUNITY

Middle-skill jobs are large and growing—and these jobs pay well.

THE REASON

Career Education gives students a wide variety of program choices at multiple campuses—at a fraction of the cost.

ADVANCED MANUFACTURING

Thanks to advancements in automation and Industry 4.0 technologies, modern manufacturing has evolved into a high-tech, clean, and safe environment. To meet today's needs and tomorrow's challenges, high-tech manufacturing (or Advanced Manufacturing) jobs continue to grow, especially in the areas of additive manufacturing, lean manufacturing, robotics and automation, industrial internet of things, digital transformation, predictive maintenance, precision machining and engineering.

Additionally, the Advanced Manufacturing sector values diversity and is determined to create an environment where individuals from all backgrounds can thrive. Women, in particular, perform an integral role to the industry's future success, bringing unique perspectives and skills that contribute to its ongoing transformation and competitiveness in the global market. Opportunities for advancement in Advanced Manufacturing are plentiful in product design, process engineering, operations, maintenance, and lab work. Professionals who are adaptable, innovative, and capable of applying scientific and technical principles are well-positioned for rewarding and dynamic careers.

Sample Employers:

*Labor market data derived from Lightcast 2023.3; QCEW, Non-QCEW, Self-Employed; 2022-2027 projections.

^ Please note that job growth/decline does not equal labor market demand; demand is represented by annual job openings

ADVANCED MANUFACTURING | JOBS & WAGES

The following table lists the **minimum** educational attainment that an individual needs to have in order to be qualified for the occupation. Wages listed for each occupation are based on 25th percentile wages, which represent wages for entry-level workers. Only occupations with entry annual salaries of at least \$37,440 (i.e., living wage) and a labor market demand of at least 50 annual job openings are included in this list. Any job with “All Other” in the title is an occupation with highly specialized subsets; put differently, the title is written broadly to capture various emerging occupations.

ADVANCED TRANSPORTATION & LOGISTICS

The Advanced Transportation & Logistics sector ensures that people and things get to the right place, at the right time, and for the right price. Using cutting-edge technologies and processes, people in this sector are called on to move people and products from point A to point B by air, land, and sea. It takes people with all different talents, skills, backgrounds, and training to keep things moving. Areas of projected market growth include the use of Global Positioning Systems (GPS), Geographic Information Systems (GIS), Radio Frequency Identification (RFID), developments in rocket technology, drones, hydrogen fuel-cell technology, autonomy, connected vehicles, and electric vehicles. The industry offers diverse job opportunities, spanning from technical to managerial roles.

AGRICULTURE, WATER, & ENVIRONMENTAL TECHNOLOGIES

As California’s population continues to grow, the state’s agricultural, water, and environmental resources are more important than ever. Agriculture alone is a \$49 billion-dollar industry in California, making the state the most prolific agricultural producer in the U.S. To meet the growing demand for these resources, companies are rapidly adopting new technologies and sustainable practices, and need workers to drive improvements in the sector. Careers in this sector range from turf management at municipal golf courses to research in biological sciences. Employees may work in a lab, on a farm, ranch, dairy, orchard, greenhouse, plant nursery, or in a veterinary office.

Sample Employers:

Altman Specialty Plants, LLC.
BrightView Holdings, Inc.
Cargill, Incorporated.
Carlsbad Desalination Plant
City of San Diego - Environmental Services

Cleantech San Diego
The Davey Tree Expert Company
ECOR Global
Helix Water District
Moon Valley Nurseries

Padre Dam Water District
San Diego County Water Authority
San Diego Public Utilities Department

BUSINESS & ENTREPRENEURSHIP

Every company, regardless of its industry or size, needs people to manage personnel, sell products, and account for finances. There is a high demand across various industries for professionals trained in business management, banking, marketing, and customer service. These skills are fundamental components of the global economy and are highly marketable. Professionals seeking to run their own businesses including independent contractors and digital platform workers will find that financial literacy, management, communication, and customer service skills are essential when it comes to entrepreneurial pursuits. Expertise in these areas provide a strong foundation for professional growth and success. The Business & Entrepreneurship sector is poised for continued growth and evolution driven by advances in technology, market globalization, and the expansion of banking and investment institutions around the world. Individuals with a wide range of versatile business skills are well positioned to obtain rewarding and diverse career opportunities.

ENERGY, CONSTRUCTION, & UTILITIES

The Energy, Construction, & Utilities sector is a diverse and critical part of the global economy. It encompasses the creation of physical structures, the production and distribution of energy, and the provision of essential utilities, all of which have significant impacts on society, the environment, and economic development. This sector is evolving to embrace sustainability and cleaner energy sources to address environmental concerns and meet future energy demands.

HEALTH

The Health sector is projected to grow due to an aging population, particularly in California where it is a rapidly expanding sector employing 1.7 million professionals. Contrary to expectation, doctors and nurses constitute less than 40% of healthcare workers, with allied health professionals comprising 60%. Diverse career options exist, spanning 30+ occupations such as nursing, research, diagnostics, support, physical therapy, and health informatics. Opportunities thrive across all segments, especially for roles like Certified Nursing Assistants, Home Health Aides, Licensed Vocational Nurses, and Registered Nurses. These opportunities lead to impactful careers and job security even during economic downturns.

INFORMATION & COMMUNICATION TECHNOLOGIES (ICT) & DIGITAL MEDIA

As companies continue to use new and emerging technologies, the demand for technologically savvy and creative professionals will continue to grow. Jobs in the ICT and Digital Media sector tend to be constantly changing and require a combination of imaginative and hands-on skills. Professionals in this sector must be able to work both independently and collaboratively.

ICT and Digital Media students learn about the design, development, maintenance, and management of hardware, software, multimedia, and systems integration services. Because of the central role that technology plays in all industries, ICT professionals are and will continue to be in great demand in every sector of the economy. Specific areas of future growth are likely to surface in cloud computing, collection and storage of big data, and information security (for example, cybersecurity).

LIFE SCIENCES & BIOTECHNOLOGY

Life Sciences & Biotechnology is a sector comprising professional, scientific and technical industries. Life sciences are the study of living organisms and life processes; using living cells to produce something else. Biotechnology is a subsector of the life sciences industry, and encompasses processes like growing food, making medicines and developing vaccines. Biotech companies use biology to develop new products, methods and organisms intended to improve human health. Life science organizations in California expanded employment by 6.0 percent in 2022, which outpaced all other industries in California.

PUBLIC SAFETY & GOVERNMENT

Public safety and government are always in need of qualified candidates. Many employers in this industry have a list of skills in demand, which include communication skills, creativity, critical thinking, detail-oriented, leadership, multi-tasking, organizational skills, planning, positive disposition, problem solving, and teamwork/collaboration. Public safety is also categorized as a recession-resilient job, which has annual openings at or above the regional average. Public safety and government is not limited to first responders, with many pursuing other career possibilities in related fields such as the security industry, law enforcement, custody & corrections (probation & parole), court systems, animal control, postal service, private investigation, public safety dispatch, to name a few.

RETAIL, HOSPITALITY, & TOURISM

The Retail, Hospitality, and Tourism sector holds a pivotal role in the local economy. As it consistently adjusts to evolving consumer preferences and technological progress, it provides a wealth of job opportunities, offering employees the chance to develop skills that are not only transferable, but also enduring and essential in today's job market. Retail, Hospitality, and Tourism entry-level jobs can prepare job seekers for careers within the same sector or across industries as a stepping-stone toward diverse career aspirations and goals.

COLLEGE OVERVIEW

CUYAMACA COLLEGE

El Cajon

Situated on 165 rolling acres in scenic Rancho San Diego, Cuyamaca College opened in 1978 and serves almost 10,000 students each semester. The school in eastern San Diego County offers 91 degree programs and 74 certificates. Cuyamaca College has renowned career education programs in automotive technology, ornamental horticulture, computer and information science, and engineering.

GROSSMONT COLLEGE

El Cajon

Grossmont College, located on a 135-acre mesa in northwest El Cajon, has been a vital part of the community since 1961. Grossmont serves almost 19,000 full- and part-time students per semester, and offers 95 degree and 73 certificate programs. Grossmont College has highly regarded career education programs in culinary arts, nursing and health, and law enforcement.

IMPERIAL VALLEY COLLEGE

Imperial

In 1962, a handful of people gathered on a 160-acre plot of land in Imperial, CA. It was the first day of classes for what would become Imperial Valley College. Today, 9,000 students learn across dozens of degree, certificate and career education programs each semester. Over the past decade, Imperial Valley College has continued major modernization programs, including construction of state-of-the-art Career Education buildings and labs, and establishment of innovative educational partnerships.

MIRACOSTA COLLEGE

Oceanside

The MiraCosta Community College District includes Oceanside, Carlsbad, La Costa, Encinitas, Olivenhain, Rancho Santa Fe, Cardiff by the Sea, Solana Beach, Del Mar, and Carmel Valley. With its coastal location, beautiful campuses, and strong academic programs, MiraCosta College attracts students from throughout San Diego County, the state, and the country as well as from abroad. Founded in 1934, today, MiraCosta is one of a handful of California community colleges that offers a bachelor's degree. Nearly 15,000 students take class each semester, including military members and veteran community.

PALOMAR COLLEGE

San Marcos

Palomar College is a public, two-year community college. Its main campus is located approximately 30 miles north of downtown San Diego, in San Marcos, California. Palomar enrolls nearly 30,000 full-time and part-time students and gives you the opportunity to choose from over 200 associate degrees, complete certificate training programs, and enjoy career education classes for lifelong learning.

SAN DIEGO CITY COLLEGE

Downtown San Diego

For more than 100 years, City College has been a public, two-year community college serving as the educational cornerstone of downtown San Diego. The college covers 60 acres, taking up 20% of downtown's footprint. By the numbers, the school offers 250 majors and certificate programs, and conducts 1,500 classes each semester for more than 17,000 students. Explore career education at City College.

SAN DIEGO COLLEGE OF CONTINUING EDUCATION

Across San Diego

Founded in 1914, SDCE is the adult education division of the San Diego Community College District. SDCE provides accessible, equitable, and innovative quality education across more than 70 programs and thousands of free classes. Programs are available at seven campuses in San Diego from the Barrio Logan community in the south, to Miramar in the north. Students also attend classes at over 200 community locations.

SAN DIEGO MESA COLLEGE

Clairemont Mesa

As one of California's largest community colleges, Mesa College ranks as San Diego's top transfer institution, with small classes, award-winning faculty, and a reputation as the leading college of equity and excellence. Conveniently located in central San Diego, Mesa offers Career Education programs in sectors such as allied health, Geographic Information Systems (GIS), business, multimedia, hospitality, culinary arts, fashion, architecture, and interior design along with a four-year baccalaureate degree in Health Information Management.

SAN DIEGO MIRAMAR COLLEGE

Mira Mesa

Founded in 1969, and located in Mira Mesa, Miramar College enrolls 15,000 students annually, in both online and on-campus classes. The school offers 117 degrees and certificates across 16 career education programs. Partnerships with local industries help prepare students for high-demand and well-paying jobs in the highly-competitive labor market, including biotechnology, paralegal, aviation, automotive, diesel and advanced transportation and energies.

SOUTHWESTERN COLLEGE

Chula Vista

Since its inception in 1961, Southwestern College has shaped the lives of hundreds of thousands of South County students through higher education. Nestled on a 156-acre campus in the heart of Chula Vista, the school provides a supportive environment, with over 320 associate degree and certificate programs available for a highly diverse traditional and non-traditional student population. Whether your goal is a certificate, degree, transferring to a four-year college, or pursuing career education, SWC offers extensive opportunities to meet educational, career and personal improvement goals with five locations throughout the South Bay.
