Regional Priorities

1

To better prepare our prospective students for college, from K-12 to adult education to justice-involved individuals.

2

To better onboard and support students in their education, and prepare them for the workforce and launch of their careers

3

To involve employers in students' preparation of the workforce and provide opportunities through aligned curricula, career exploration, work-based learning experiences, and job placement toward increasing students' socioeconomic mobility

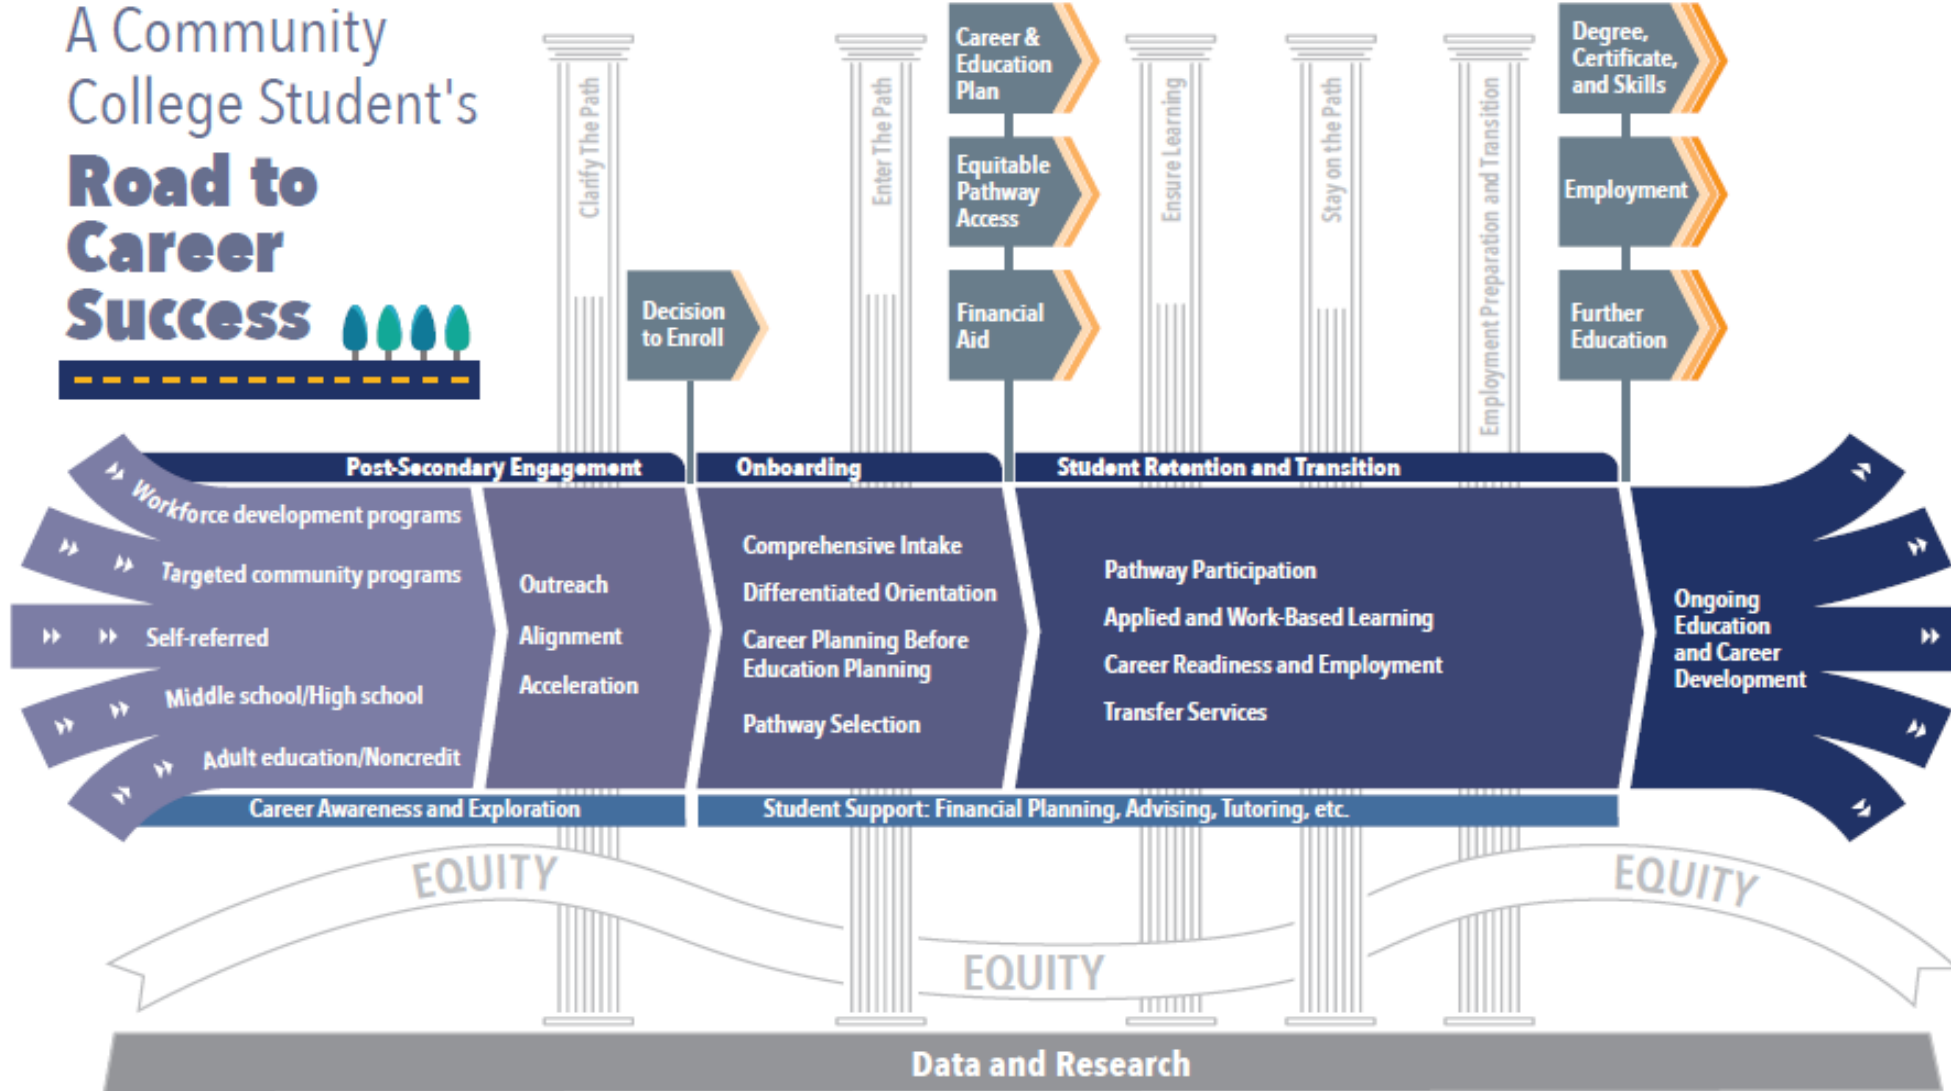

4

To ensure that colleges have data-based resources to make informed programmatic decisions that equitably benefit students and create opportunities for them, while supporting regional continuous improvement

5

To increase awareness throughout the region of the San Diego and Imperial Counties community colleges and Career Education programs
