CAREER EDUCATION

California Apprenticeship Initiative (CAI)

- CAI Program grants awarded to selected California community colleges, K-12 local education agencies to create new and innovative apprenticeship opportunities in priority and emerging industry sectors or areas.
- Planning Grants - \$120,000
- Implementation Grants - \$1,500,000
- Expansion Grants - \$1,000,000
- Pre-Apprenticeship Implementation - \$500,000

California Apprenticeship Initiative (CAI)

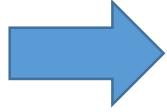

- Total of \$40 million allocated to CAI this round.
- CCCCCO received over 210 applications requesting more than \$103 million.
- March 7, 2024 - Original Notification - CAI Intent to Award
- April 10, 2024 - Notification to Applicants - Irregularities in the rubric for scoring proposals; applications reassessed.
- May 9, 2024 - Amended Notice of Intent to Award

How were proposals reassessed?

The Chancellor's Office elected to rescore all of the planning grant applications in two ways:

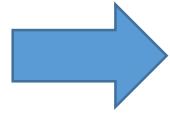

- (1) If applicable, additional points for an apprenticeship program that would provide community college credit to apprentices and/or lead to a community college degree were included in the scoring, and
- (2) A score of 75 points was applied for meeting the Request for Application (RFA) requirements (the original scores were based on an 80-point scale).

Commentary

- Labor Market Information resource tool used as part of the scoring relied on lagging/outdated information and did not appear to account for actual new apprentice positions being committed to by employer partners.
- Given seemingly vast disparities in proportions of grant awards by region, we would advocate that future awards would be allocated more equitably.
- We believe applicants should have had the opportunity to resubmit planning grants based on amended scoring criteria.
- And...more SDI colleges should apply for CAI in the future, including multiple proposals (~25% chance)
