What our Partners had to say...

- “We have witnessed firsthand how the Strong Workforce funding has helped connect more San Diegans to training opportunities to help them find meaningful career pathways and quality jobs. We work in close partnership with the San Diego Regional Consortium for Community Colleges and our entire Community College network to ensure the training programs to prepare more San Diegans for careers that will help them land quality jobs and help our regional employers meet their talent demand needs.”
 - San Diego Workforce Partnership
- “This program aligns seamlessly with SWE's mission of championing women in engineering, amplifying its significance. By maintaining support for the Strong Workforce Program, we underscore our commitment to enhancing economic vitality and cultivating a skilled workforce in our region. The SDI Regional Consortium and our community colleges have emerged as invaluable allies in reshaping education and workforce development, and it's a source of pride to stand in solidarity with them.”
 - Society of Women Engineers– San Diego
- “The Strong Workforce funding has gone beyond the confines of classrooms, extending opportunities to strengthen our local workforce and economy. By fostering collaboration within our regional workforce ecosystem, it has enabled community colleges to enhance their capacity to address systemic equity gaps. Moreover, it has facilitated advocacy efforts aimed at bringing about equitable changes to policies, processes, and practices”

What our Partners had to say...

- “I hope that my endorsement of the Strong Workforce Program funding will highlight the important work taking place in our region to improve and sustain economic competitiveness by strengthening regional economies and developing a skilled workforce. The SDI Regional Consortium and our region's community colleges have been valuable partners in making positive changes to education and workforce development in the region, and we are proud to work with them.”
 - San Diego Equality Business Association

- “Working specifically with our local community college consortium liaisons by thinking outside the box for recruitment, job fairs and other partner events has had a significant benefit to Chicano Federation. Especially this last year, where many industries have been affected by the lack of qualified applicants. Recruitment efforts have been exhausted to fill one position. Having the support of Strong Workforce has helped our agency in various areas.”
 - Chicano Federation
