community agreements

We agree to:

1. One mic - one voice at a time.
 2. Listen respectfully and actively to learn and understand others' views.
 3. Take space/make space - if you are usually quiet, challenge yourself to take more space, and if you usually talk a lot be mindful to leave room for quieter voices.
 4. Critique ideas, not people.
 5. Be curious, open, and respectful.
 6. Consider our own identities/roles and make no assumptions about others' identities/roles.
 7. Not ask individuals to speak for their (perceived) social group.
 8. Actively combat racism, discrimination, and microaggressions.
 9. Be conscious of jargon / acronyms - use inclusive language that is accessible for people with varying inside knowledge.
 10. Be aware of time - the co-chairs may request to move on in order to make time for all agenda items.
